

“If I look back at the four years spent at G. H. Raisoni College of Engineering, Nagpur, it has been full of learnings. Every single day made incremental additions to my wisdom, knowledge and skills. The classes have contributed deeply to my technical knowledge and the extra-curricular activities have honed my management skills. The state-of-the-art infrastructure, resources and R&D activities, the college has invested in, helps in catering education as per global standards. The institute gives a holistic perspective that all technocrats aspire to have. I feel proud to say that the kind of support we get from the faculty as undergraduate students is commendable, making the learning experience valuable and enjoyable.”

Avishek Majumdar

Electronics and Telecommunication Engineering
